

## CAA Boys Rankings

(highest to lowest)

National Blue

National Red

National White

American Blue

American Red

American White

Continental Blue

Continental Red

Continental White

Note: The County will sometimes add a division in the American & Continental groupings & call it American Green or Continental Orange. These are basically just to accommodate a large number of teams requesting a certain ranking below American Blue.

National Blue, National Red, National White & American Blue are almost never expanded, although sometimes they will have an East & West subdivision, such as National Blue East. The decisions aren't made until they know how many boys teams there are County wide.
